Announcing the launch of the COLOR PORTAL at WWW.COLORCUBE.COM

NEW WESTMINSTER, BC - August 19, 1999. Spittin' Image Software takes on a leadership role in helping new technology users become familiar with computer color. Its website http://www.colorcube.com is an excellent resource for color information. Featuring interactive web-based activities and exclusively available software tools, this website is an education and entertainment haven for those interested in learning more about the phenomenon of color.

Tagged as a "Color Portal", COLORCUBE.COM is well positioned to address the growing need for color understanding as it relates to computer technology. Suitable for all age and education levels, the COLORCUBE Website is an attractive, user-friendly site with several innovative highlights such as: articles on various color topics, interactive learning, 3D screensavers, simple color software, teacher's guidebook and construction model all used to explain the science and art of color.

"COLORCUBE.COM is designed to encourage the exploration and appreciation of the many dimensions of color", says Director of Development, Ken Davies. "We're introducing a website with the power to change people's perception of color."

Never has the need to master the intricacies of color been more critical. At a time when the use of graphics software and color printing devices continue to increase, COLORCUBE.COM responds with a complete online color resource that provides a dynamic education environment.

Spittin' Image Software is located near Vancouver, British Columbia, Canada. The company strives to raise the overall competency of color knowledge in a fun and practical way. More information on the COLORCUBE: 3D Color Puzzle, COLORCUBE Color Analyser, COLORCUBE Color Assistant, COLORCUBE Color Command Console, COLORCUBE Screensavers and other products are available at http://www.colorcube.com. For a full press kit, call (604) 525-2170.
